blem Solvers, Part Changers

led by brothers, Ted and Tom Hebert,
ntracting, Inc. started as W.A.R. Systems
(r Assisted Refrigeration) in 1972. When
two children, Brian and Sarah took over
03, the name 3H was born. Built on their
's idea of being problem solvers, not
hangers, they believe that if there's a fix,
try our best to keep you up and running
he least out-of-pocket expense possible.
; the way we got our start because that's
ght thing to do.

are an accredited business with the
Business Bureau and are proud to have
ed an A+ rating for the quality of our ser-
Our reviews on Angie's List and Yelp also
le great insight into the level of care we
to our work.

ut Us

ontracting, Inc. is a family-owned-and-
ted mechanical contractor with over
ears experience. Recently our company
panded its operation to include Orlando
he same fast, courteous service it has be-
oviding to the Tampa area since 1972.

Air Services

Job is too big or small; we've done them all. Contracting, Inc. can repair, maintain, or install any HVAC system of any size.

Residential/Commercial

We design, construct, install, and maintain HVAC systems for residential, commercial, and industrial buildings.

HVAC Design

If you are a building contractor, building owner, or facilities manager, 3H Commercial HVAC is a trusted name to know.

Energy Saving

We have developed innovative, patent pending, energy-saving "green" technologies that deliver results. These proven solutions have been implemented in governmental and commercial buildings, post offices, military facilities, manufacturing and office buildings and are generating positive returns.

The Future of Our Business

- Recent expansion into the Orlando market increases our overall coverage area while keeping costs and overhead down by combining efforts of both branches.
- By investing into our work horses (our service trucks) and purchasing newer, more fuel-efficient vehicles, we're helping to keep our carbon footprint low and pass the cost savings on to you, the customer.
- Since our beginning back in 1972, 3H has always prided itself on being innovators. Our founder, Thomas H. Hebert, started the company as an inventor and engineer of energy efficient HVAC products. We have and always will be thinking about ways to make the future a little brighter for everyone. It's who we are. It's what we do.

We proudly sell and service:

TRANE

Our work is licensed, insured, and fully guaranteed. Making a "science of service" has been the way 3H technicians have interacted with customers and solved their problems for more than 40 years. Use our services once and you'll wonder why you ever used anyone else.

- Family Owned & Operated
- Established in 1972
- BBB Accredited Business - A+ Rating
